# Hue

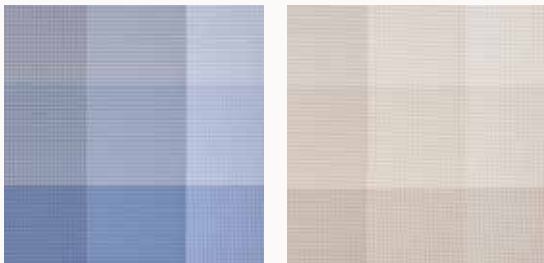

## WEAVE INTRODUCTION – TABLETOP

Combining the dimension of a woven textile with the graphic precision typically associated with prints, Hue celebrates the formation and interaction of color. A lively yet harmonious surface of twelve perfect squares is created by deliberate combinations of two tonally distinct yarns that come together to create the appearance of a third hue through a phenomenon known as optical mixing: a perceptual blending that takes place between the eye and the brain.

Suitable for indoor and outdoor use. Made in the USA with TerraStrand® and Microban®. Free of phthalates.
